

ConX Phone

InFocus

Easy to use, feature-rich video phone

Part #: MVP100

A key component of the ConX line of video conferencing solutions, the ConX Phone enables effective video calls from your desk so you can be more productive in all of your business interactions.

Making an audio or video call with the ConX Phone is as easy as using a standard phone, plus you can import your existing contact lists and manage features from the web.

Key Benefits

- Enhance collaboration and productivity of people, teams and partners
- Affordable enough for mass deployment
- Significant reductions in travel costs while maintaining effective face-to-face communications
- The phones quickly pay for themselves with savings in travel and increased productivity
- Easy to setup with auto-provisioning

IT-friendly management

The ConX Phone is designed for easy mass deployment and management, with seamless integration into business environments as a remotely controlled asset and the option of password protection.

HD quality video and audio

The phone has an easily adjustable and crisp 10" colour display plus an adjustable 720p HD camera providing a relaxing view for all callers. The built-in wide-band speaker and high dynamic range microphone ensure clear conversations, or use your headset.

Remote access via web portal

IT and users can manage and support their ConX Phones via a comprehensive web portal. Manage your phone contacts and automatically sync them to your phone and even enable features such as call forwarding and password protection all from the web.

Key Features

- 10-inch HD display and 720p camera are both adjustable for comfortable visual communication
- Make calls to – or answer calls from – any phone
- As easy to use as a standard phone
- Seamless video conferencing with InFocus Mondopad
- Standard SIP protocol

ConX Cloud

Cloud-based video conferencing

Conduct HD video calls anytime, anywhere, on virtually any device.

- Join a call from PCs, Macs, tablets, and smartphones
- Works with third party SIP or H.323 devices
- View and interact with people and presentations, documents, or data simultaneously
- Affordable packages ranging from 3 seats up to 100 video rooms, each with 50 seats
